**NEWS RELEASE**

**GOLDEN REVENUE UPDATE**

September 28, 2004 - Robert C. Carne, President is pleased to announce results from the second phase of 2004 drilling at ATAC's Golden Revenue property, which is under option to Yale Resources Ltd. A third stage of drilling consisting of four or five holes has begun.

The most significant result from the second phase came from hole DN04-08 which averaged 1.35 g/t gold over 110.81 m, including a 3.23 m interval that graded 23.60 g/t. The 2004 drill intersections, together with results from earlier drill programs, partially defined a near-surface bulk tonnage target, within which are two subparallel bands of higher grade mineralization.

Mineralized intervals from the second phase of holes are shown in the following table. Results from the first phase were reported in a news release dated August 19, 2004.

<u>Drill Hole</u>	<u>Hole Depth (m)</u>	<u>From (m)</u>	<u>To (m)</u>	<u>Interval (m)</u>	<u>Gold (g/t)</u>
DN04-06	112.17	95.40	110.30	14.90	0.92
DN04-07	77.42	32.63	53.07	20.44	0.62
incl.		43.28	50.60	7.32	1.07
DN04-08	121.92	6.25	117.06	110.81	1.35
incl.		6.25	84.60	78.35	1.69
incl.		9.42	12.65	3.23	23.60
DN04-09	215.04	109.27	127.73	18.46	0.64
and		138.94	148.74	9.80	0.51
and		170.84	172.98	2.14	3.70

The Golden Revenue drill program is managed by Archer, Cathro & Associates (1981) Limited under the supervision of Mr. Bill Wengzynowski P.Eng, who is the qualified person for NI 43-101 purposes. Assaying is being done at ALS Chemex in North Vancouver with independent check assaying by Acme Analytical Labs Ltd. in Vancouver.
